Item 2.02. Results of Operations and Financial Condition.

On March 6, 2023, Endo International plc (the “Company,” “Endo,” or “we”) issued an earnings release announcing its financial results for the three and twelve months ended December 31, 2022 and 2021 (the “Earnings Release”). A copy of the Earnings Release is attached as Exhibit 99.1 hereto and is incorporated herein by reference.

The Company utilizes certain financial measures that are not prescribed by or prepared in accordance with accounting principles generally accepted in the U.S. (“GAAP”). The Company utilizes these financial measures, commonly referred to as “non-GAAP,” as supplements to financial measures determined in accordance with GAAP when evaluating the Company’s operating performance and the Company believes that they will be used by certain investors to measure the Company’s operating results. The Company believes that presenting these non-GAAP financial measures provides useful information about the Company’s performance across reporting periods on a consistent basis by excluding certain items, which may be favorable or unfavorable, pursuant to the procedure described in the succeeding paragraph.

The initial identification and review of the adjustments necessary to arrive at these non-GAAP financial measures are performed by a team of finance professionals that include the Chief Accounting Officer and segment finance leaders in accordance with the Company’s Adjusted Income Statement Policy, which is reviewed and approved annually by the Audit & Finance Committee of the Company’s Board of Directors. Company tax professionals review and determine the tax effect of adjusted pre-tax income at applicable tax rates and other tax adjustments as described below. Proposed adjustments, along with any items considered but excluded, are presented to the Chief Accounting Officer, Chief Executive Officer and/or the Chief Financial Officer for their consideration. In turn, the non-GAAP adjustments are presented to the Audit & Finance Committee on a quarterly basis as part of the Company’s standard procedures for preparation and review of the earnings release and other quarterly materials.

These non-GAAP financial measures should be considered supplemental to and not a substitute for financial information prepared in accordance with GAAP. The Company’s definition of these non-GAAP financial measures may differ from similarly titled measures used by others. The definitions of the most commonly used non-GAAP financial measures are presented below.

Adjusted income from continuing operations

Adjusted income from continuing operations represents Loss from continuing operations prepared in accordance with GAAP and adjusted for certain items. Adjustments to GAAP amounts may include, but are not limited to, acquisition-related and integration items, including transaction costs and changes in the fair value of contingent consideration; cost reduction and integration-related initiatives such as separation benefits, continuity payments, other exit costs and certain costs associated with integrating an acquired company’s operations; certain amounts related to strategic review initiatives; asset impairment charges; amortization of intangible assets; inventory step-up recorded as part of our acquisitions; litigation-related and other contingent matters; certain legal costs; gains or losses from early termination of debt; debt modification costs; gains or losses from the sales of businesses and other assets; foreign currency gains or losses on intercompany financing arrangements; reorganization items, net; the tax effect of adjusted pre-tax income at applicable tax rates and other tax adjustments; and certain other items.

Adjusted diluted net income per share from continuing operations and Adjusted diluted weighted average shares

Adjusted diluted net income per share from continuing operations represents Adjusted income from continuing operations divided by the number of Adjusted diluted weighted average shares.

Both GAAP and non-GAAP diluted Net income (loss) per share data is computed based on weighted average shares outstanding and, if there is net income from continuing operations (rather than net loss) during the period, the dilutive impact of share equivalents outstanding during the period. Diluted weighted average shares outstanding and Adjusted diluted weighted average shares outstanding are calculated on the same basis except for the net income or loss figure used in determining whether to include such dilutive impact.

Adjusted gross margin

Adjusted gross margin represents total revenues less cost of revenues prepared in accordance with GAAP and adjusted for the items enumerated above under the heading “Adjusted income from continuing operations,” to the extent such items relate to cost of revenues. Such items may include, but are not limited to, cost reduction and integration-related initiatives such as separation benefits, continuity payments, other exit costs and certain costs associated with integrating an acquired company’s operations; certain amounts related to strategic review initiatives; amortization of intangible assets; inventory step-up recorded as part of our acquisitions; and certain other items.

Adjusted operating expenses

Adjusted operating expenses represent operating expenses prepared in accordance with GAAP and adjusted for the items enumerated above under the heading “Adjusted income from continuing operations,” to the extent such items relate to operating expenses. Such items may include, but are not limited to, acquisition-related and integration items, including transaction costs and changes in the fair value of contingent consideration; cost reduction and integration-related initiatives such as separation benefits, continuity payments, other exit costs and certain costs associated with integrating an acquired company’s operations; certain amounts related to strategic review initiatives; asset impairment charges; amortization of intangible assets; inventory step-up recorded as part of our acquisitions; litigation-related and other contingent matters; certain legal costs; debt modification costs; and certain other items.

Adjusted interest expense

Adjusted interest expense represents interest expense, net, prepared in accordance with GAAP, adjusted for certain non-cash interest expense.

Adjusted income taxes and Adjusted effective tax rate

Adjusted income taxes are calculated by tax effecting adjusted pre-tax income and permanent book-tax differences at the applicable effective tax rate that will be determined by reference to statutory tax rates in the relevant jurisdictions in which the Company operates. Adjusted income taxes include current and deferred income tax expense commensurate with the non-GAAP measure of profitability. Adjustments are then made for certain items relating to prior years and for tax planning actions that are expected to be distortive to the underlying effective tax rate and trend in the effective tax rate. The most directly comparable GAAP financial measure for Adjusted income taxes is Income tax expense, prepared in accordance with GAAP. The Adjusted effective tax rate represents the rate generated when dividing Adjusted income taxes by the amount of adjusted pre-tax income.

EBITDA and Adjusted EBITDA

EBITDA represents Net income (loss) before Interest expense, net; Income tax expense; Depreciation; and Amortization, each prepared in accordance with GAAP. Adjusted EBITDA further adjusts EBITDA by excluding other (income) expense, net; share-based compensation; acquisition-related and integration items, including transaction costs and changes in the fair value of contingent consideration; cost reduction and integration-related initiatives such as separation benefits, continuity payments, other exit costs and certain costs associated with integrating an acquired company’s operations; certain amounts related to strategic review initiatives; asset impairment charges; inventory step-up recorded as part of our acquisitions; litigation-related and other contingent matters; certain legal costs; debt modification costs; reorganization items, net; discontinued operations, net of tax; and certain other items.

The Company’s Adjusted income from continuing operations, Adjusted diluted net income per share from continuing operations, Adjusted operating expenses and Adjusted EBITDA exclude opioid-related legal expenses. The Company believes that such costs are not indicative of business performance and that excluding them more accurately reflects the Company’s results and better enables management to compare financial results between periods.

Because adjusted financial measures exclude the effect of items that will increase or decrease the Company’s reported results of operations, the Company strongly encourages investors to review the Company’s consolidated financial statements and publicly filed reports in their entirety. Investors are also encouraged to review the reconciliation of the non-GAAP financial measures used in the Earnings Release to their most directly comparable GAAP financial measures as included in the Earnings Release. However, the Company does not provide reconciliations of projected non-GAAP financial measures to GAAP financial measures, nor does it provide comparable projected GAAP financial measures for such projected non-GAAP financial measures. The Company is unable to provide such reconciliations without unreasonable efforts due to the inherent difficulty in forecasting and quantifying certain amounts that are necessary for such reconciliations, including adjustments that could be made for asset impairments, contingent consideration adjustments, legal settlements, gains or losses on extinguishment of debt, adjustments to inventory and other charges reflected in the reconciliation of historic numbers, the amount of which could be significant.

The information in this Item 2.02 and in Exhibit 99.1 attached hereto shall not be deemed to be “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liabilities of that section. The information contained in this Item 2.02 and in Exhibit 99.1 attached hereto shall not be incorporated into any registration statement or other document filed by the Registrant with the U.S. Securities and Exchange Commission under the Securities Act of 1933, whether made before or after the date hereof, regardless of any general incorporation language in such filing, except as shall be expressly set forth by specific reference in such filing.

- (1) Reported Diluted Net Loss per Share from Continuing Operations is computed based on weighted average shares outstanding and, if there is income from continuing operations during the period, the dilutive impact of ordinary share equivalents outstanding during the period. In the case of Adjusted Diluted Weighted Average Shares, Adjusted Income from Continuing Operations is used in determining whether to include such dilutive impact.
- (2) The information presented in the table above includes non-GAAP financial measures such as Adjusted Income from Continuing Operations, Adjusted Diluted Weighted Average Shares, Adjusted Diluted Net Income per Share from Continuing Operations and Adjusted EBITDA. Refer to the "Supplemental Financial Information" section below for reconciliations of certain non-GAAP financial measures to the most directly comparable GAAP financial measures.
- (3) Effective January 1, 2022, these non-GAAP financial measures now include acquired in-process research and development charges which were previously excluded under Endo's legacy non-GAAP policy. This change has been applied retrospectively to all periods presented. Refer to note (15) in the "Notes to the Reconciliations of GAAP and Non-GAAP Financial Measures" section below for additional discussion.

CONSOLIDATED FINANCIAL RESULTS

Total revenues were \$556 million in fourth-quarter 2022, a decrease of 30% compared to \$789 million in fourth-quarter 2021. This decrease was primarily attributable to decreased revenues from the Sterile Injectables segment.

Reported loss from continuing operations in fourth-quarter 2022 was \$245 million compared to \$557 million in fourth-quarter 2021. Reported diluted net loss per share from continuing operations in fourth-quarter 2022 was \$1.04 compared to \$2.38 in fourth-quarter 2021. These results were primarily due to lower asset impairment and litigation-related charges and operating expenses, as well as lower interest as a result of the Chapter 11 filing, partially offset by decreased revenues and expenses related to the Chapter 11 reorganization process.

Adjusted income from continuing operations in fourth-quarter 2022 was \$190 million compared to \$180 million in fourth-quarter 2021. Adjusted diluted net income per share from continuing operations in fourth-quarter 2022 was \$0.80 compared to \$0.76 in fourth-quarter 2021. These results were primarily driven by lower interest and operating expenses, which were partially offset by decreased revenues.

BRANDED PHARMACEUTICALS SEGMENT

Fourth-quarter 2022 Branded Pharmaceuticals segment revenues were \$224 million, a decrease of 2% compared to \$228 million during fourth-quarter 2021.

Specialty Products revenues increased 1% to \$162 million in fourth-quarter 2022 compared to \$161 million in fourth-quarter 2021, with sales of XIAFLEX[®] decreasing 5% to \$114 million compared to \$120 million in fourth-quarter 2021. XIAFLEX[®] fourth-quarter 2022 revenues were unfavorably impacted by continued challenging market conditions for specialty product office-based elective procedures and the ongoing impact from the third-quarter disruption experienced by our third-party specialty pharmacy provider, which improved during fourth-quarter 2022. Established Products revenues decreased 9% to \$61 million in fourth-quarter 2022 compared to \$67 million in fourth-quarter 2021, driven primarily by ongoing generic competition.

STERILE INJECTABLES SEGMENT

Fourth-quarter 2022 Sterile Injectables segment revenues were \$108 million, a decrease of 66% compared to \$319 million during fourth-quarter 2021. This was primarily attributable to decreased VASOSTRICT[®] revenues due to lower price and market share resulting from generic competition and lower overall market volumes as COVID-19-related hospitalizations decline.

GENERIC PHARMACEUTICALS SEGMENT

Fourth-quarter 2022 Generic Pharmaceuticals segment revenues were \$205 million, a decrease of 6% compared to \$218 million during fourth-quarter 2021. This decrease was primarily attributable to competitive pressure on certain generic products, partially offset by revenues from varenicline tablets, the first generic version of Chantix[®] which launched during third-quarter 2021.

INTERNATIONAL PHARMACEUTICALS SEGMENT

Fourth-quarter 2022 International Pharmaceuticals segment revenues were \$20 million, a decrease of 19% compared to \$24 million during fourth-quarter 2021. This decrease was primarily attributable to competitive pressures and the expiration of a product agreement.

CASH, CASH FLOW AND OTHER UPDATES

As of December 31, 2022, the Company had approximately \$1.0 billion in unrestricted cash. Fourth-quarter 2022 net cash provided by operating activities was approximately \$110 million compared to approximately \$50 million used in operating activities during fourth-quarter 2021. This increase was primarily attributable to a decrease in net working capital as well as reductions in cash interest and litigation related payments, which were partially offset by a decrease in Adjusted EBITDA.

Additionally, during fourth-quarter 2022, the Company announced that it will cease the production and sale of Endo Aesthetics' Qwo[®] (collagenase clostridium histolyticum-aaes) in light of market concerns about the extent and variability of bruising following initial treatment as well as the potential for prolonged skin discoloration.

Chantix[®] is a registered trademark of Pfizer Inc.

(1) Products included within Other Specialty include AVEED®, NASCOBAL® Nasal Spray and QWO®.

(2) Products included within Other Established include, but are not limited to, EDEX®.

(3) Individual products presented above represent the top two performing products in each product category for the year ended December 31, 2022 and/or any product having revenues in excess of \$25 million during any completed quarterly period in 2022 or 2021.

(4) Products included within Other Sterile Injectables include APLISOL®, ertapenem for injection and others.

(5) The Generic Pharmaceuticals segment is comprised of a portfolio of products that are generic versions of branded products, are distributed primarily through the same wholesalers, generally have limited or no intellectual property protection and are sold within the U.S. During the three months and year ended December 31, 2022, varenicline tablets (Endo's generic version of Pfizer Inc.'s Chantix®), which launched in September 2021, made up 16% and 13%, respectively, of consolidated total revenues. During the three months ended December 31, 2021, varenicline tablets made up 7% of consolidated total revenues. No other individual product within this segment has exceeded 5% of consolidated total revenues for the periods presented.

(6) The International Pharmaceuticals segment, which accounted for less than 5% of consolidated total revenues for each of the periods presented, includes a variety of specialty pharmaceutical products sold outside the U.S., primarily in Canada through Endo's operating company Paladin Labs Inc.

(a) Beginning during the third quarter of 2022, Endo became obligated to make certain adequate protection payments as a result of the Chapter 11 proceedings, which are currently being accounted for as a reduction of the carrying amount of the related debt instruments and presented as financing cash outflows. Some or all of the adequate protection payments may later be recharacterized as interest expense and/or as operating cash outflows depending upon certain developments in the Chapter 11 proceedings, which could result in increases in interest expense and/or decreases in operating cash flows in future periods that may be material.

SUPPLEMENTAL FINANCIAL INFORMATION

To supplement the financial measures prepared in accordance with U.S. generally accepted accounting principles (GAAP), the Company uses certain non-GAAP financial measures. For additional information on the Company's use of such non-GAAP financial measures, refer to Endo's Current Report on Form 8-K furnished today to the U.S. Securities and Exchange Commission, which includes an explanation of the Company's reasons for using non-GAAP measures.

The tables below provide reconciliations of certain of the Company's non-GAAP financial measures to their most directly comparable GAAP amounts. Refer to the "Notes to the Reconciliations of GAAP and Non-GAAP Financial Measures" section below for additional details regarding the adjustments to the non-GAAP financial measures detailed throughout this Supplemental Financial Information section.

As previously communicated, in response to views expressed by the U.S. Securities and Exchange Commission, the Company has, effective January 1, 2022, revised its definition of its adjusted financial measures to no longer exclude Acquired in-process research and development charges (representing the research and development costs it had previously labeled as "Upfront and milestone payments to partners"). As a result of this change, the Company's adjusted financial measures now reflect the impact of those transactions. The inclusion of the impact of these transactions, which may occur from time to time, could result in significant, but temporary, fluctuations in both Endo's GAAP and Non-GAAP financial measures in the period(s) in which they are incurred. These charges also are not indicative of the underlying performance of Endo's operations during the period. This change was applied retrospectively to all periods presented herein. Refer to footnote (15) in the "Notes to the Reconciliations of GAAP and Non-GAAP Financial Measures" section below for additional discussion.

Total	\$ 61,806	\$ 136,575	\$ 9,058	\$ 81,854

The amounts in the tables above include adjustments related to previously announced restructuring activities, certain continuity and transitional compensation arrangements, certain other cost reduction initiatives and certain strategic review initiatives.

- (3) To exclude adjustments to accruals for litigation-related settlement charges.

- (4) To exclude amounts related to opioid-related legal expenses. The amount during the year ended December 31, 2022 reflects the recovery of certain previously-incurred opioid-related legal expenses.

- (5) Adjustments for asset impairment charges included the following (in thousands):

	Three Months Ended December 31,		Year Ended December 31,	
	2022	2021	2022	2021
	Goodwill impairment charges	\$ —	\$ 363,000	\$ 1,845,000

Total	\$ 191,530	\$ 364,584	\$ 2,142,746	\$ 414,977

- (6) To exclude integration costs.

- (7) To exclude the impact of changes in the fair value of contingent consideration liabilities resulting from changes to estimates regarding the timing and amount of the future revenues of the underlying products and changes in other assumptions impacting the probability of incurring, and extent to which the Company could incur, related contingent obligations.

- (8) To exclude the loss on the extinguishment of debt associated with the Company's March 2021 refinancing transactions.

- (9) To exclude Other income, net per the Consolidated Statements of Operations.

(10) Amounts relate to the net expense or income recognized during Endo's bankruptcy proceedings required to be presented as Reorganization items, net under *Accounting Standards Codification Topic 852, Reorganizations*.

(11) The "Other" rows included in each of the above reconciliations of GAAP financial measures to non-GAAP financial measures (except for the reconciliations of Net loss (GAAP) to Adjusted EBITDA (non-GAAP)) include the following (in thousands):

	Three Months Ended December 31,

Total	\$ 500	\$ 3,925	\$ (37,405)	\$ 1,301	\$ 3,909	\$ (19,749)

The "Other" row included in the reconciliations of Net loss (GAAP) to Adjusted EBITDA (non-GAAP) primarily relates to the items enumerated in the foregoing "Cost of revenues" and "Operating expenses" columns.

(12) To exclude the results of the businesses reported as discontinued operations, net of tax.

(13) To exclude amortization expense related to intangible assets.

(14) Adjusted income taxes are calculated by tax effecting adjusted pre-tax income and permanent book-tax differences at the applicable effective tax rate that will be determined by reference to statutory tax rates in the relevant jurisdictions in which the Company operates. Adjusted income taxes include current and deferred income tax expense commensurate with the non-GAAP measure of profitability.

(15) Effective January 1, 2022, these non-GAAP financial measures now include acquired in-process research and development charges which were previously excluded under Endo's legacy non-GAAP policy. This change has been applied retrospectively to all periods presented. Amounts of Acquired in-process research and development charges included within these non-GAAP financial measures are set forth in the table below (in thousands):

	Three Months Ended December 31,		Year Ended December 31,	
	2022	2021	2022	2021
Acquired in-process research and development charges	\$ —	\$ 20,120	\$ 68,700	\$ 25,120

(16) Calculated as income or loss from continuing operations divided by the applicable weighted average share number. The applicable weighted average share numbers are as follows (in thousands):

	Three Months Ended December 31,		Year Ended December 31,	
	2022	2021	2022	2021
GAAP	235,205	233,681	234,840	232,785
Non-GAAP Adjusted	236,500	237,045	236,404	236,665

Non-GAAP Financial Measures

The Company utilizes certain financial measures that are not prescribed by or prepared in accordance with accounting principles generally accepted in the U.S. (GAAP). These non-GAAP financial measures are not, and should not be viewed as, substitutes for GAAP net income and its components and diluted net income per share amounts. Despite the importance of these measures to management in goal setting and performance measurement, the company stresses that these are non-GAAP financial measures that have no standardized meaning prescribed by GAAP and, therefore, have limits in their usefulness to investors. Because of the non-standardized definitions, non-GAAP adjusted EBITDA and non-GAAP adjusted net income from continuing operations and its components (unlike GAAP net income from continuing operations and its components) may not be comparable to the calculation of similar measures of other companies. These non-GAAP financial measures are presented solely to permit investors to more fully understand how management assesses performance.

Investors are encouraged to review the reconciliations of the non-GAAP financial measures used in this press release to their most directly comparable GAAP financial measures. However, the Company does not provide reconciliations of projected non-GAAP financial measures to GAAP financial measures, nor does it provide comparable projected GAAP financial measures for such projected non-GAAP financial measures. The Company is unable to provide such reconciliations without unreasonable efforts due to the inherent difficulty in forecasting and quantifying certain amounts that are necessary for such reconciliations, including adjustments that could be made for asset impairments, contingent consideration adjustments, legal settlements, gain / loss on extinguishment of debt, adjustments to inventory and other charges reflected in the reconciliation of historic numbers, the amounts of which could be significant.

See Endo's Current Report on Form 8-K furnished today to the U.S. Securities and Exchange Commission for an explanation of Endo's non-GAAP financial measures.

Cautionary Note Regarding Forward-Looking Statements

Certain information in this press release may be considered "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 and any applicable Canadian securities legislation, including, but not limited to, statements with respect to financial guidance, the restructuring support agreement and the sale transaction, the Chapter 11 proceedings and recognition proceedings, and any other statements that refer to Endo's expected, estimated or anticipated future results or that do not relate solely to historical facts. Statements including words or phrases such as "believe," "expect," "anticipate," "intend," "estimate," "plan," "will," "may," "look forward," "intend," "guidance," "future," "potential" or similar expressions are forward-looking statements. All forward-looking statements in this communication reflect the Company's current views as of the date of this communication about its plans, intentions, expectations, strategies and prospects, which are based on the information currently available to it and on assumptions it has made. Actual results may differ materially and adversely from current expectations based on a number of factors, including, among other things, the following: the timing, impact or results of any pending or future litigation, investigations, proceedings or claims, including opioid, tax and antitrust related matters; actual or contingent liabilities; settlement discussions or negotiations; the Company's liquidity, financial performance, cash position and operations; the Company's

strategy; risks and uncertainties associated with Chapter 11 proceedings; the negative impacts on the Company's businesses as a result of filing for and operating under Chapter 11 protection; the time, terms and ability to confirm a sale of the Company's businesses under Section 363 of the U.S. Bankruptcy Code; the adequacy of the capital resources of the Company's businesses and the difficulty in forecasting the liquidity requirements of the operations of the Company's businesses; the unpredictability of the Company's financial results while in Chapter 11 proceedings; the Company's ability to discharge claims in Chapter 11 proceedings; negotiations with the holders of the Company's indebtedness and its trade creditors and other significant creditors; risks and uncertainties with performing under the terms of the restructuring support agreement and any other arrangement with lenders or creditors while in Chapter 11 proceedings; the Company's ability to conduct business as usual; the Company's ability to continue to serve customers, suppliers and other business partners at the high level of service and performance they have come to expect from the Company; the Company's ability to continue to pay employees, suppliers and vendors; the ability to control costs during Chapter 11 proceedings; adverse litigation; the risk that the Company's Chapter 11 Cases may be converted to cases under Chapter 7 of the Bankruptcy Code; the Company's ability to secure operating capital; the Company's ability to take advantage of opportunities to acquire assets with upside potential; the Company's ability to execute on its strategic plan to pursue, evaluate and close an asset sale of the Company's businesses pursuant to Section 363 of the U.S. Bankruptcy Code; the impact of competition, including competition with VASOSTRICT® and varenicline tablets; Endo's ability to satisfy judgments or settlements or pursue appeals including bonding requirements; Endo's ability to adjust to changing market conditions; Endo's ability to attract and retain key personnel; supply chain interruptions or difficulties; changes in competitive or market conditions; changes in legislation or regulatory developments; Endo's ability to obtain and maintain adequate protection for Endo's intellectual property rights; the timing and uncertainty of the results of both the research and development and regulatory processes, including regulatory decisions, product recalls, withdrawals and other unusual items; domestic and foreign health care and cost containment reforms, including government pricing, tax and reimbursement policies; technological advances and patents obtained by competitors; the performance, including the approval, introduction, and consumer and physician acceptance of new products and the continuing acceptance of currently marketed products; Endo's ability to integrate any newly acquired products into Endo's portfolio and achieve any financial or commercial expectations; the impact that known and unknown side effects may have on market perception and consumer preference for Endo's products; the effectiveness of advertising and other promotional campaigns; the timely and successful implementation of any strategic initiatives; unfavorable publicity regarding the misuse of opioids; the uncertainty associated with the identification of and successful consummation and execution of external corporate development initiatives and strategic partnering transactions; Endo's ability to advance its strategic priorities, develop its product pipeline and continue to develop the market for XIAFLEX® and other branded and unbranded products; and Endo's ability to obtain and successfully manufacture, maintain and distribute a sufficient supply of products to meet market demand in a timely manner. In addition, U.S. and international economic conditions, including consumer confidence and debt levels, inflation, taxation, changes in interest and currency exchange rates, international relations, capital and credit availability, the status of financial markets and institutions, the impact of and response to the ongoing COVID-19 pandemic and the impact of continued economic volatility, can materially affect Endo's results. Therefore, the reader is cautioned not to rely on these forward-looking statements. Endo expressly disclaims any intent or obligation to update these forward-looking statements, except as required to do so by law.
