Item 2.02. Results of Operations and Financial Condition.

On February 28, 2019, Endo International plc (the "Company," "Endo," or "we") issued an earnings release announcing its financial results for the three and twelve months ended December 31, 2018 (the "Earnings Release"). A copy of the Earnings Release is attached as Exhibit 99.1 hereto and is incorporated herein by reference.

The Company utilizes certain financial measures that are not prescribed by or prepared in accordance with accounting principles generally accepted in the U.S. ("GAAP"). The Company utilizes these financial measures, commonly referred to as "non-GAAP," because (i) they are used by the Company, along with financial measures in accordance with GAAP, to evaluate the Company's operating performance; (ii) the Company believes that they will be used by certain investors to measure the Company's operating results; (iii) the Compensation Committee of the Company's Board of Directors uses adjusted diluted EPS and Adjusted EBITDA, or measures derived from such, in assessing the performance and compensation of substantially all of the Company's employees, including executive officers and (iv) the Company's leverage ratio, as defined by the Company's credit agreement, is calculated based on non-GAAP financial measures. The Company believes that presenting these non-GAAP measures provides useful information about the Company's performance across reporting periods on a consistent basis by excluding certain items, which may be favorable or unfavorable, pursuant to the procedure as described in the succeeding paragraph.

The initial identification and review of the non-GAAP adjustments necessary to arrive at these non-GAAP financial measures are performed by a team of finance professionals that include the Chief Accounting Officer and segment finance leaders in accordance with the Company's Adjusted Income Statement Policy, which is reviewed and approved by the Company's Audit Committee. Company tax professionals, including the Senior Vice President of Tax, review and determine the tax effect of adjusted pre-tax income at applicable tax rates and other tax adjustments as described below. Proposed adjustments, along with any items considered but excluded, are presented to the Chief Accounting Officer, Chief Executive Officer and/or the Chief Financial Officer for their consideration. In turn, the non-GAAP adjustments are presented to the Audit Committee on a quarterly basis as part of the Company's standard procedures for preparation and review of the earnings release and other quarterly materials.

These non-GAAP measures should be considered supplemental to and not a substitute for financial information prepared in accordance with GAAP. The Company's definition of these non-GAAP measures may differ from similarly titled measures used by others. The definitions of the most commonly used non-GAAP financial measures are presented below:

Adjusted income from continuing operations

Adjusted income from continuing operations represents income (loss) from continuing operations, prepared in accordance with GAAP, adjusted for certain items. Adjustments to GAAP amounts may include, but are not limited to, certain upfront and milestone payments to partners; acquisition-related and integration items, including transaction costs and changes in the fair value of contingent consideration; cost reduction and integration-related initiatives such as separation benefits, retention payments, other exit costs and certain costs associated with integrating an acquired company's operations; asset impairment charges; amortization of intangible assets; inventory step-up recorded as part of our acquisitions; litigation-related and other contingent matters; gains or losses from early termination of debt; gains or losses from the sales of businesses and other assets; foreign currency gains or losses on intercompany financing arrangements; and certain other items; further adjusted for the tax effect of adjusted pre-tax income at applicable tax rates and other tax adjustments as described below.

Adjusted diluted earnings per share from continuing operations and adjusted diluted weighted average shares

Adjusted diluted earnings per share from continuing operations represent adjusted income from continuing operations divided by the number of adjusted diluted weighted average shares.

Both GAAP and non-GAAP diluted per share data is computed based on weighted average shares outstanding and, if there is net income from continuing operations (rather than net loss) during the period, the dilutive impact of share equivalents outstanding during the period. Diluted weighted average shares outstanding and adjusted diluted weighted average shares outstanding are calculated on the same basis except for the net income or loss figure used in determining whether to include such dilutive impact.

Adjusted gross margin

Adjusted gross margin represents total revenues less cost of revenues, prepared in accordance with GAAP, adjusted for the items enumerated above under the heading "Adjusted income from continuing operations," to the extent such items relate to cost of revenues. Such items may include, but are not limited to, amortization of intangible assets and inventory step-up recorded as part of our acquisitions, certain excess inventory reserves resulting from restructuring initiatives and separation benefits.

Adjusted operating expenses

Adjusted operating expenses represent operating expenses, prepared in accordance with GAAP, adjusted for the items enumerated above under the heading "Adjusted income from continuing operations," to the extent such items relate to operating expenses. Such items may include, but are not limited to, certain upfront and milestone payments to partners; acquisition-related and integration items, including transaction costs and changes in the fair value of contingent consideration; cost reduction and integration-related initiatives such as separation benefits, retention payments, other exit costs and certain costs associated with integrating an acquired company's operations; asset impairment charges; amortization of intangible assets; litigation-related and other contingent matters; and certain other items.

Adjusted interest expense

Adjusted interest expense represents interest expense, net, prepared in accordance with GAAP, adjusted for certain non-cash interest expense and penalty interest.

Adjusted income taxes

Adjusted income taxes are calculated by tax effecting adjusted pre-tax income and permanent book-tax differences at the applicable effective tax rate that will be determined by reference to statutory tax rates in the relevant jurisdictions in which the Company operates. Adjusted income taxes include current and deferred income tax expense commensurate with the non-GAAP measure of profitability. Adjustments are then made for certain items relating to prior years and for tax planning actions that are expected to be distortive to the underlying effective tax rate and trend in the effective tax rate. The most directly comparable GAAP financial measure for Adjusted income taxes is income tax expense (benefit), prepared in accordance with GAAP. The adjusted effective tax rate represents the rate generated when dividing adjusted income tax expense or benefit by the amount of adjusted pre-tax income.

EBITDA and Adjusted EBITDA

EBITDA represents net income (loss) before interest expense, net; income tax; depreciation; and amortization, each prepared in accordance with GAAP. Adjusted EBITDA further adjusts EBITDA by excluding other (income) expense, net; share-based compensation; certain upfront and milestone payments to partners; acquisition-related and integration items, including transaction costs and changes in the fair value of contingent consideration; cost reduction and integration-related initiatives such as separation benefits, retention payments, excess inventory reserves, other exit costs and certain costs associated with integrating an acquired company's operations; asset impairment charges; inventory step-up recorded as part of our acquisitions; litigation-related and other contingent matters; gains or losses from early termination of debt; gains or losses from the sales of businesses and other assets; discontinued operations, net of tax; and certain other items.

Net Debt and Net Debt Leverage Ratio

Net debt is calculated as the aggregate carrying amount of debt outstanding less unrestricted cash and cash equivalents.

The net debt leverage ratio is calculated as net debt divided by adjusted EBITDA for the trailing twelve-month period.

Because adjusted financial measures exclude the effect of items that will increase or decrease the Company's reported results of operations, the Company strongly encourages investors to review the Company's consolidated financial statements and publicly filed reports in their entirety. Investors are also encouraged to review the reconciliation of the non-GAAP financial measures used in the Earnings Release to their most directly comparable GAAP financial measures as included in the Earnings Release. However, the Company does not provide reconciliations of projected non-GAAP financial measures to GAAP financial measures, nor does it provide comparable projected GAAP financial measures for such projected non-GAAP financial measures. The Company is unable to provide such reconciliations without unreasonable efforts due to the inherent difficulty in forecasting and quantifying certain amounts that are necessary for such reconciliations, including adjustments that could be made for asset impairments, contingent consideration adjustments, legal settlements, loss on extinguishment of debt, adjustments to inventory and other charges reflected in the reconciliation of historic numbers, the amount of which could be significant.

The information in this Item 2.02 and in Exhibit 99.1 attached hereto shall not be deemed to be "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liabilities of that section. The information contained in this Item 2.02 and in Exhibit 99.1 attached hereto shall not be incorporated into any registration statement or other document filed by the Registrant with the U.S. Securities and Exchange Commission under the Securities Act of 1933, whether made before or after the date hereof, regardless of any general incorporation language in such filing, except as shall be expressly set forth by specific reference in such filing.

ENDO REPORTS FOURTH-QUARTER AND FULL YEAR 2018 FINANCIAL RESULTS

- *Fourth-quarter 2018 revenues increased 2 percent to \$786 million*
- *Fourth-quarter 2018 Sterile Injectables revenues increased 32 percent to \$259 million*
- *Fourth-quarter 2018 XIAFLEX® franchise revenues increased 30 percent to \$80 million*
- *Company expects 2019 revenues to range between \$2.76 billion and \$2.96 billion and 2019 adjusted EBITDA between \$1.24 billion and \$1.34 billion*

DUBLIN, February 28, 2019 -- Endo International plc (NASDAQ: ENDP) today reported fourth-quarter 2018 financial results, including:

- Revenues of \$786 million, an increase of 2 percent compared to fourth-quarter 2017 revenues of \$769 million; revenues increased 5 percent compared to third-quarter 2018.
- Reported net loss from continuing operations of \$265 million compared to fourth-quarter 2017 reported net loss from continuing operations of \$272 million.
- Reported diluted loss per share from continuing operations of \$1.18 compared to fourth-quarter 2017 reported diluted loss per share from continuing operations of \$1.22.
- Adjusted income from continuing operations of \$175 million compared to fourth-quarter 2017 adjusted income from continuing operations of \$174 million.
- Adjusted diluted EPS from continuing operations of \$0.75 compared to fourth-quarter 2017 adjusted diluted EPS from continuing operations of \$0.77.
- Adjusted EBITDA of \$344 million compared to fourth-quarter 2017 adjusted EBITDA of \$327 million.

"We are pleased to report both revenue and adjusted EBITDA growth during the fourth quarter. This resulted from continued dedicated operational execution and strategic focus, and concluded a full year of strong performance. The fourth quarter's performance was driven by double-digit growth in our U.S. Branded - Sterile Injectables segment and in the Specialty Products portfolio of our U.S. Branded - Specialty & Established Pharmaceuticals segment," said Paul Campanelli, President and Chief Executive Officer of Endo.

"We expect to further enhance our capabilities in these core growth areas as well as in the development of high-barrier generic products and we expect 2019 to be a critical transitional year as we progress to the next phase of our multi-year turnaround plan."

(1) Diluted per share data is computed based on weighted average shares outstanding and, if there is income from continuing operations during the period, the dilutive impact of share equivalents outstanding during the period. In the case of Adjusted Diluted Weighted Average Shares, Adjusted Income from Continuing Operations is used in determining whether to include such dilutive impact.

CONSOLIDATED RESULTS

Total revenues were \$786 million in fourth-quarter 2018 compared to \$769 million during the same period in 2017. This increase was primarily attributable to continued strong growth in the U.S. Branded - Sterile Injectables segment and the Specialty Products portfolio of our U.S. Branded - Specialty & Established Pharmaceuticals segment. In addition to the continued strong underlying performance of our core areas of growth, the fourth quarter increase in these areas reflects a benefit from the timing of shipments compared to prior year. These factors were partially offset by competitive pressures in the U.S. Generic Pharmaceuticals segment and the divestiture of the Company's Mexican business, Somar.

GAAP net loss from continuing operations in fourth-quarter 2018 was \$265 million compared to GAAP net loss from continuing operations of \$272 million during the same period in 2017. This result was primarily attributable to an overall reduction in operating expenses, including the impact of lower litigation-related charges and research and development expenses, partially offset by higher asset impairment charges. GAAP diluted net loss per share from continuing operations in fourth-quarter 2018 was \$1.18 compared to GAAP diluted net loss per share from continuing operations of \$1.22 in fourth-quarter 2017.

Adjusted income from continuing operations in fourth-quarter 2018 was \$175 million compared to \$174 million in fourth-quarter 2017. Adjusted diluted EPS from continuing operations in fourth-quarter 2018 was \$0.75 compared to \$0.77 in fourth-quarter 2017.

U.S. BRANDED - SPECIALTY & ESTABLISHED PHARMACEUTICALS

The Company reported positive results from two Phase 3 clinical trials of collagenase clostridium histolyticum (or "CCH") for the treatment of cellulite in the buttocks. Trial subjects receiving CCH showed highly statistically significant levels of improvement in the appearance of cellulite with treatment, as measured by the trial's primary endpoint.

Fourth-quarter 2018 U.S. Branded - Specialty & Established Pharmaceuticals results include:

- Revenues of \$230 million compared to \$228 million in fourth-quarter 2017; this increase was primarily attributable to continued strong growth of our Specialty Products portfolio, offset by ongoing generic competition in our Established Products portfolio.
- Specialty Products revenues increased 15 percent to \$143 million in fourth-quarter 2018 compared to fourth-quarter 2017, primarily driven by the continued strong performance from XIAFLEX[®]. Sales of XIAFLEX[®] increased 30 percent to \$80 million compared to fourth-quarter 2017; this increase was primarily attributable to underlying volume growth in both the Peyronie's Disease and Dupuytren's Contracture indications and a benefit from the timing of shipments compared to prior year.

U.S. BRANDED - STERILE INJECTABLES

Fourth-quarter 2018 U.S. Branded - Sterile Injectables revenues were \$259 million, an increase of 32 percent compared to fourth-quarter 2017. This increase was primarily attributable to the continued strong growth of ADRENALIN[®] and VASOSTRICT[®] and a benefit from timing of shipments compared to prior year.

U.S. GENERIC PHARMACEUTICALS

During fourth-quarter 2018, the U.S. Generic Pharmaceuticals segment launched three products. Fourth-quarter 2018 U.S. Generic Pharmaceuticals revenues were \$264 million compared to \$303 million in fourth-quarter 2017. This performance was primarily attributable to competitive pressures in the generics business.

INTERNATIONAL PHARMACEUTICALS

Fourth-quarter 2018 International Pharmaceuticals revenues were \$34 million, compared to \$41 million in the same period in 2017. This performance is primarily attributable to the Somar divestiture in the fourth-quarter of 2017.

2019 FINANCIAL GUIDANCE

For the twelve months ending December 31, 2019, at current exchange rates, Endo is providing guidance on revenue, adjusted diluted EPS from continuing operations and adjusted EBITDA from continuing operations. The Company estimates:

- Total revenues to be between \$2.76 billion and \$2.96 billion;
- Adjusted diluted EPS from continuing operations to be between \$2.00 and \$2.25; and
- Adjusted EBITDA from continuing operations to be between \$1.24 billion and \$1.34 billion.

The Company's 2019 non-GAAP financial guidance is based on the following assumptions:

- Adjusted gross margin of approximately 65.0% to 66.0%;
- Adjusted operating expenses as a percentage of revenues of approximately 24.5% to 25.0%;
- Adjusted interest expense of approximately \$550 million to \$560 million;
- Adjusted effective tax rate of approximately 17.5% to 18.5%;
- Adjusted diluted weighted average shares outstanding of approximately 234 million; and
- Revenue, Adjusted EBITDA, and Adjusted Diluted EPS weighted more towards the second half of 2019

BALANCE SHEET, LIQUIDITY AND OTHER UPDATES

As of December 31, 2018, the Company had \$1.1 billion in unrestricted cash; debt of \$8.3 billion; net debt of approximately \$7.1 billion and a net debt to adjusted EBITDA ratio of 5.2.

Fourth-quarter 2018 cash provided by operating activities was \$70 million, compared to \$132 million of net cash provided by operating activities during fourth quarter 2017.

SUPPLEMENTAL FINANCIAL INFORMATION

To supplement the financial measures prepared in accordance with U.S. generally accepted accounting principles (GAAP), the Company uses certain non-GAAP financial measures. For additional information on the Company's use of such non-GAAP financial measures, refer to Endo's Current Report on Form 8-K furnished today to the U.S. Securities and Exchange Commission, which includes an explanation of the Company's reasons for using non-GAAP measures.

The tables below provide reconciliations of certain of our non-GAAP financial measures to their most directly comparable GAAP amounts. Refer to the "Notes to the Reconciliations of GAAP and Non-GAAP Financial Measures" section below for additional details regarding the adjustments to the non-GAAP financial measures detailed throughout this Supplemental Financial Information section.

Non-GAAP Financial Measures

The Company utilizes certain financial measures that are not prescribed by or prepared in accordance with accounting principles generally accepted in the U.S. (GAAP). These Non-GAAP financial measures are not, and should not be viewed as, substitutes for GAAP net income and its components and diluted earnings per share amounts. Despite the importance of these measures to management in goal setting and performance measurement, we stress that these are Non-GAAP financial measures that have no standardized meaning prescribed by GAAP and, therefore, have limits in their usefulness to investors. Because of the non-standardized definitions, Non-GAAP adjusted EBITDA and Non-GAAP adjusted net income from continuing operations and its components (unlike GAAP net income from continuing operations and its components) may not be comparable to the calculation of similar measures of other companies. These Non-GAAP financial measures are presented solely to permit investors to more fully understand how management assesses performance.

Investors are encouraged to review the reconciliations of the non-GAAP financial measures used in this press release to their most directly comparable GAAP financial measures. However, the Company does not provide reconciliations of projected non-GAAP financial measures to GAAP financial measures, nor does it provide comparable projected GAAP financial measures for such projected non-GAAP financial measures. The Company is unable to provide such reconciliations without unreasonable efforts due to the inherent difficulty in forecasting and quantifying certain amounts that are necessary for such reconciliations, including adjustments that could be made for asset impairments, contingent consideration adjustments, legal settlements, loss on extinguishment of debt, adjustments to inventory and other charges reflected in the reconciliation of historic numbers, the amount of which could be significant.

See Endo's Current Report on Form 8-K furnished today to the U.S. Securities and Exchange Commission for an explanation of Endo's non-GAAP financial measures.

Cautionary Note Regarding Forward-Looking Statements

This press release contains forward-looking statements, including but not limited to the statements by Mr. Campanelli, as well as other statements regarding product development, market potential, corporate strategy, optimization efforts and restructurings, timing, closing and expected benefits and value from any acquisition, expected growth and regulatory approvals, together with Endo's earnings per share from continuing operations amounts, product net sales, revenue forecasts and any other statements that refer to Endo's expected, estimated or anticipated future results. Because forecasts are inherently estimates that cannot be made with precision, Endo's performance at times differs materially from its estimates and targets, and Endo often does not know what the actual results will be until after the end of the applicable reporting period. Therefore, Endo will not report or comment on its progress during a current quarter except through public announcement. Any statement made by others with respect to progress during a current quarter cannot be attributed to Endo.

All forward-looking statements in this press release reflect Endo's current analysis of existing trends and information and represent Endo's judgment only as of the date of this press release. Actual results may differ materially from current expectations based on a number of factors affecting Endo's businesses, including, among other things, the following: changing competitive, market and regulatory conditions; changes in legislation; Endo's ability to obtain and maintain adequate protection for its intellectual property rights; the timing and uncertainty of the results of both the research and development and regulatory processes, including regulatory decisions, product recalls, withdrawals and other unusual items; domestic and foreign health care and cost containment reforms, including government pricing, tax and reimbursement policies; technological advances and patents obtained by competitors; the performance, including the approval, introduction, and consumer and physician acceptance of new products and the continuing acceptance of currently marketed products; the effectiveness of advertising and other promotional campaigns; the timely and successful implementation of strategic initiatives; the timing or results of any pending or future litigation, investigations or claims or actual or contingent liabilities, settlement discussions, negotiations or other adverse proceedings; unfavorable publicity regarding the misuse of opioids; timing and uncertainty of any acquisition, including the possibility that various closing conditions may not be satisfied or waived, uncertainty surrounding the successful integration of any acquired business and failure to achieve the expected financial and commercial results from such acquisition; the uncertainty associated with the identification of and successful consummation and execution of external corporate development initiatives and strategic partnering transactions; and Endo's ability to obtain and successfully maintain a sufficient supply of products to meet market demand in a timely manner. In addition, U.S. and international economic conditions, including higher unemployment,

political instability, financial hardship, consumer confidence and debt levels, taxation, changes in interest and currency exchange rates, international relations, capital and credit availability, the status of financial markets and institutions, fluctuations or devaluations in the value of sovereign government debt, as well as the general impact of continued economic volatility, can materially affect Endo's results. Therefore, the reader is cautioned not to rely on these forward-looking statements. Endo expressly disclaims any intent or obligation to update these forward-looking statements except as required to do so by law.

Additional information concerning the above-referenced risk factors and other risk factors can be found in press releases issued by Endo, as well as Endo's public periodic filings with the U.S. Securities and Exchange Commission and with securities regulators in Canada, including the discussion under the heading "Risk Factors" in Endo's most recent Annual Report on Form 10-K and any subsequent Quarterly Reports on Form 10-Q.
